Bob:

This looks good. I'll get things moving over here and keep you in the loop as it moves forward.
Ultimately, someone from our grants office will be sending an IAG package over to you for signature.

Thanks, Palmer

Palmer,

I revised the document according to your guidance. See attachment.

Bob:

Thanks for putting this together. I think the text is the right level of detail. My only suggested edit it to:

Ex. 5 - Deliberative

In addition to the text, it needs a budget showing what funds you are looking for from EPA - I think we discussed travel. I've attached an example of a SOW and budget for an IA I just processed with FWS for a training we put on together. The budget is very simple, shows FWS's in-kind contribution and then shows what EPA funds would be used for.

Also please identify the POC for the IA. I assume it is you.

Please let me know if you have any questions.

Thanks, Palmer

Subject: IAG draft

Phil and Palmer,

As per the conversation that Palmer and I had in the airport last Friday morning, I have prepared a brief justification for an IAG to support my

travel expenses related to the Bristol Bay watershed assessment exercise. I modeled this on an IAG that I currently have in place for technical support to Region 1 at an abandoned mine Superfund site in Maine.

Let me know what needs to be done at this point.

Bob
